Opitek FF (Flex Fix)

Patient positioning taken a step further...

A universal flexible patient positioning device build on the principles of maximizing:

- patient safety
- flexibility
- infection control

Two designs of the device make it possible to easily change between a disposable and a fixed support pad. Upgrade sets available for both options.

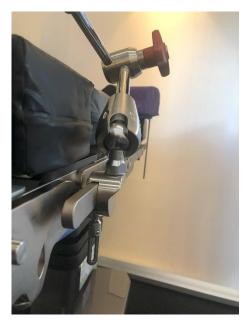

Opitek Flex Fix model for disposable pad Article number 2024-200 Support Cushion, Single use 2015-02
