

## Declaration of disinfection

Since Opitek does not have facilities for cleaning equipment, items for service or returned loans must be accompanied by this declaration of disinfection.

All equipment must be disinfected in accordance with the national surface disinfection guidelines appropriate for your country.

Please tick off the appropriate box(es):

- The equipment has not been used clinically and therefore not been in contact with either body fluids or pathological tissue samples.
- The equipment has been surface disinfected.
- The equipment has been disassembled when surface disinfected.
